Amendment 10 modifies the verification method for structure (“B1/VM1”) and the acceptable solutions for structure (“B1/AS1” and “B1/AS3”) to take account of changes to the seismicity of the area contained within the boundaries of the Christchurch City Council, the Selwyn District Council and the Waimakariri District Council (“the Canterbury Earthquake Region”).

The statement of proposal for Amendment 10 to the B1 Compliance Document can be downloaded free of charge from the Department of Building and Housing website at

[www.dbh.govt.nz/consulting-on](http://www.dbh.govt.nz/consulting-on)

This consultation is carried out in accordance with section 30(1)(a) of the Act, for the purpose of making a final decision on the urgent amendment to Compliance Document B1 that was made on 19 May 2011.

Note that NZS 3604:2011 (Section 5) was incorporated by reference into Compliance Document B1 as part of that urgent amendment.

That standard has subsequently (on 1 August 2011, and following consultation) been incorporated by reference into that Compliance Document for the whole of New Zealand (ie Amendment 11).

There will, therefore, be no further consultation on that aspect of the urgent amendment.

## Economic Development

### Telecommunications Act 2001

#### Statement to the Commerce Commission Concerning Incentives for Businesses to Invest in Ultra-fast Broadband Infrastructure

*To:* The Commerce Commission

Pursuant to section 19A of the Telecommunications Act 2001, I hereby transmit to the Commerce Commission (“Commission”) the following statement of the economic policy of the Government in relation to the incentives of businesses to invest in ultra-fast broadband infrastructure.

**Government Policy Statement**

**Incentives for businesses to invest in ultra-fast broadband infrastructure**

This statement sets out the Government’s economic policy on ultra-fast broadband infrastructure investment in the context of businesses (including Local Fibre Companies) that are or may be regulated under Part 2 of the Telecommunications Act 2001.

Ultra-fast broadband infrastructure is optical fibre infrastructure that supports broadband connections at speeds of at least 100 Mbps downstream and 50 Mbps upstream.

**Introduction and background**

The Government believes that faster and better broadband services are critical to improving productivity in the economy, New Zealand’s global competitiveness and the lives of New Zealanders.

To this end it has put in place the Ultra-fast Broadband Initiative to assist and encourage the private sector to invest in early deployment of fibre, with a particular focus on sectors that are expected to yield the greatest productivity benefits.

The Government has the following objective for ultra-fast broadband:

“To accelerate the roll-out of ultra-fast broadband to 75 percent of New Zealanders over 10 years, concentrating in the first six years on priority broadband users such as businesses, schools and health services, plus greenfield developments and certain tranches of residential areas.”

The UFB Objective will be supported by a Government investment of up to \$1.35 billion, which will be at least matched by private sector investment and will be **directed to open-access infrastructure (UFB Initiative)**.

Through the Rural Broadband Initiative (**RBI**), the Government has also subsidised ultra-fast broadband infrastructure in the rural sector. This subsidy complements investment by RBI Partners. The RBI will provide fibre connections to schools and hospitals, as well as business and households that are located on new fibre routes.

The provision of efficient ultra-fast broadband infrastructure requires that businesses have the confidence and incentives to make investments in new or upgraded ultra-fast broadband infrastructure.

Particular issues arise in the way services are or may be regulated under Part 2 of the Telecommunications Act 2001. The way in which the prices, revenues and/or quality of goods and services produced by these businesses is regulated or controlled can affect their incentives to invest in new or upgraded ultra-fast broadband infrastructure.

#### *Economic Policy Objectives*

The Government’s economic policy objective is that businesses have incentives to innovate and invest in new or upgraded ultra-fast broadband infrastructure for the long term benefit of end users.

The Government considers that this objective will be achieved by:

1. regulatory stability, transparency and predictability giving businesses the confidence to make long-life investments;
2. regulation taking full account of the long-term risks to consumers of under-investment in new or upgraded ultra-fast broadband infrastructure.
3. ensuring that any price regulation proposed under Schedule 3 of the Telecommunications Act 2001, that may occur in the future, recognises that revenues, over the life of the assets, are sufficient to cover efficient operating costs and a normal return on, and recovery of, capital invested; and
4. ensuring any price regulation proposed under Schedule 3 of the Telecommunications Act 2001 takes into account the start-up risks associated with introduction of new technology.

## Justice

### Judicature Act 1908

#### Court of Appeal Procedures Adopted

Pursuant to sections 58C(1) and 58E(1) of the Judicature Act 1908 (“the Act”), those Judges of the Court of Appeal holding office under section 57(2) of the Act (“permanent Judges”) have adopted the following procedures.

#### 1. Assignment of Judges to Divisions of the Court of Appeal

1.1 The assignment of High Court Judges to divisions of the Court will be:

- consistent with their eligibility through nomination by the Chief Justice in terms of sections 58A and 58B of the Act; and
- with the concurrence of the Chief Justice and the Chief High Court Judge pursuant to section 58C(3) of the Act.

1.2 The Court will prepare periodically a forward planning programme covering the anticipated sittings of the divisions.

1.3 The programme will provide, in the main, for:

- divisions of three permanent Judges (a division so comprised being referred to in this notice as a “Permanent Court”) and
- divisions of two permanent Judges and one High Court Judge or of one permanent Judge and two High Court Judges (a division so comprised being referred to in this notice as a “Divisional Court”).

Exceptions will be necessary to allow for Full Courts, inability of a particular Judge to sit on a particular case, illness, leave or otherwise as the exigencies of the situation require.

1.4 In the main, criminal appeals will be set down before a Divisional Court unless the President otherwise directs. This recognises the insights which Judges with current trial experience bring to criminal appeals. The Judge making the decision under section 392A of the Crimes Act 1961 may recommend that the case be heard either by a Permanent Court or a Full Court. As well, counsel for the appellant or respondent may request a direction that a particular appeal be heard by a Permanent Court or a Full Court.

1.5 In the main, longer civil appeals and those that raise legal issues of public significance will be set down before a Permanent Court unless the President otherwise directs. Other civil appeals will be set down before either a Permanent Court or a Divisional Court, as a matter of efficient scheduling. Counsel for the appellant or respondent may request a direction that a particular appeal be heard by a Permanent Court or a Full Court.

1.6 Assignment of permanent Judges and/or eligible High Court Judges to panels for the hearing of particular appeals will be by the President who, where appropriate, will consult with other permanent Judges.

1.7 Divisional Courts scheduled to hear criminal appeals will usually consist of one permanent Judge and two High Court Judges and Divisional Courts scheduled to hear civil appeals will usually consist of two permanent Judges and one High Court Judge

1.8 In assigning panels for the hearing of particular appeals and in deciding whether particular appeals should be heard by a Permanent Court or a Divisional Court, the President may take into account the following considerations:

- The forward planning programme and the availability of Judges.
- The equitable sharing of work among the Judges.
- The efficient dispatch of the Court’s business.
- The desirability of a prompt hearing in any case of urgency (eg an appeal by an appellant serving a short sentence or an appeal against a pretrial ruling in a criminal case).
- Considerations of expense and convenience for counsel and parties, where a decision is required to be made whether an appeal be heard in Auckland, Wellington, or Christchurch.
- The role of all the permanent Judges in the clarification and development of all areas of the law and recognition of specific areas of judicial expertise.
- That it may be desirable for related litigation (appeals arising out of the same facts between the same or some of the same parties) to be heard by the same or some of the same Judges.

#### 2. Appeals of Sufficient Significance for a Full Court

2.1 The President will determine whether a case is of sufficient significance to warrant the consideration of a Full Court. The President will, where appropriate, consult with other permanent Judges. In the main, a case will be set down before a Full Court only where:

- the establishment or revision of sentencing guidelines is proposed; or
- the appeal involves issues of evidence, procedure or practice of general application or some other issue which will be of major significance to other cases, particularly where there is no right to apply to the Supreme Court for leave to appeal against the Court’s decision.

2.2 In determining whether a case should be scheduled to be heard before a Full Court, the President may take into account the following considerations:

- The forward planning programme and availability of Judges.
- The efficient dispatch of the Court’s business.

- 2.3 That one or more of the parties seeks the reconsideration of an earlier judgment of the Court is not, in itself, a reason for setting the appeal down before a Full Court.
- 2.4 A decision that an appeal be heard before a Full Court may be reviewed by the President from time to time (for instance for reasons associated with the availability of Judges) and the President may direct that an appeal which is scheduled to be heard before a Full Court be heard before a Permanent Court or a Divisional Court.
- 2.5 The permanent Judges will consult regularly to review the criteria, their implementation and the general effect of the allocation to a Full Court on the overall workload of the Court.

References in this notice to “the President” include a Judge acting as President or a Judge nominated by the President to undertake any of the functions of the President referred to in this notice.

Dated at Wellington this 7th day of October 2011.

MARK O'REGAN, President of the Court of Appeal.

*Note:* A Full Court will also consider references from a Permanent Court or a Divisional Court made pursuant to section 58(6) of the Act and appeals under section 10 of the Courts Martial Appeals Act 1953.

*Also Note:* These procedures replace those adopted on the 1st day of April 2009 and notified in the *New Zealand Gazette*, 9 April 2009, No. 48, page 1172.
